App privacy checklist: Carryover Notes

Reviewed by _____ Date _____

Answers written by DAIKUMA PHARMA K.K., the developer of Carryover Notes, in November 2026. The OK and Follow up boxes are for your reviewer. Full details: daikuma-pharmaceuticals.com/carryover/security.html

1. **Where is student data stored?** ☐ OK ☐ Follow up
   Only in the app's private storage on the clinician's iPhone.

2. **Does the vendor receive any student information, including audio, transcripts or diagnostic logs?** ☐ OK ☐ Follow up
   No. There is no server and no cloud sync. App Store privacy label: Data Not Collected.

3. **Is an account required, and who can access the data?** ☐ OK ☐ Follow up
   No account. Only the person using the iPhone, behind the device passcode and an optional Face ID lock.

4. **Is data encrypted at rest and in transit?** ☐ OK ☐ Follow up
   At rest: iOS Complete Protection, unreadable while the phone is locked. In transit: nothing is transmitted.

5. **If the app uses AI, where does processing happen? Is any data used for training?** ☐ OK ☐ Follow up
   On the iPhone, with Apple's on-device speech recognition and language model. Nothing is sent anywhere or used for training.

6. **Which third parties (analytics, crash reporting, advertising) touch the data?** ☐ OK ☐ Follow up
   None. The app contains no analytics, advertising or third-party crash-reporting tools.

7. **How long is data kept, and how is it deleted?** ☐ OK ☐ Follow up
   Until the clinician deletes it or deletes the app. Deleting the app deletes all of its data.

8. **What happens if the device is lost?** ☐ OK ☐ Follow up
   Data stays protected by the device passcode and encryption; district-managed devices can be wiped remotely through MDM.

9. **Can the district deploy and manage the app?** ☐ OK ☐ Follow up
   Yes. The app is free, so it can be assigned through Apple School Manager and installed with any MDM.

10. **Will the vendor sign a data privacy agreement or a written attestation?** ☐ OK ☐ Follow up
    No student data reaches us, so there is nothing for a data-sharing agreement to govern. We will sign a written attestation on request.

General information, not legal advice. Your district's policies decide what applies.
